

QUICK CONNECT KIT

Lighting installation, simplified.

The Fast Mount Systems' QUICK CONNECT KIT delivers innovative, best-in-class, home ready mounting.

With the Quick Connect Kit, anyone can quickly, safely and easily install or replace any chain or cable pendant or chandelier.

- Patented one-step system to support and power fixtures
- Cost effective – no need to wait for expensive and time-consuming professional installation
- Easily adapts to your light fixture: Reduces up to 80% of the install time
- Simplifies current hardware/wiring requirements
- Enables rapid change-out of electrical fixtures
- **SAFETY FIRST!** Drastically limits the causes of electrocution, shocks, fires and ladder falls. (less time on ladders - the #1 cause of injury per CDC)
- **Fast Mount System** technology can extend to Smart Home devices (compatible with Alexa, Siri, Ring, Ecobee, etc.)

DIRECT BENEFITS FROM THE MANUFACTURER

- New innovation to increase overall market share and sales volume
- Low-cost adapting to your fixtures
- Your company will be recognized as an innovative leader
- Lower install costs result in customers buying higher list fixtures
- Benefits your customers: quicker installs & showroom resets
- Increased frequency of purchases
- Expanded market potential for lighting and fan upgrades to new styles and smart fixtures

The PATENTED Fast Mount aligns with new **NEC** category, Section 314.27(E): Separable Attachment Fittings. Adopted for 2017- 2023 code revisions. FMS has received early ETL certification.

Anyone can now install: chain, pendant & chandelier lights!

"Fast Mount is the new "USB" for fixtures in the electrical industry."
